

National Severe Weather Warning Service

Chief Forecasters Assessment

An area of low pressure will move up the west of Scotland during Friday with its attendant front bringing a period of rain up across southern and eastern Scotland. There will be widespread rainfall totals of 15 mm with isolated 25 to 30 mm over the braes of Angus. This rainfall will fall in a short period of time over onto ground which is already saturated so some localised flooding is expected.

The Met Office have issued a **Yellow Warning of Rain**

Valid from **09:00 on Fri, 25th Oct 2013** until **15:00 on Fri, 25th Oct 2013**

An area of rain will move in across Angus and Tayside, on Friday, this heaviest over the high ground. Some localised flooding is possible.
